CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Dream Institute of Technology is affiliated to Maulana Abul Kalam Azad University of Technology, Kolkata follows the syllabus, Question paper formation, Semester duration, Academic calendar and other as per the mandate of the University. The IQAC prepares and implements the Curriculum in all departments. Based on the University Calendar of events, the IQAC, mandates all departments, Cells, Associations / Committees to prepare their Strategic Perspective Plan and Curriculum Plan Document in consultation with the faculty, thorough brain storming. The IQAC prepares its own Calendar of events and Strategic Perspective Plan by consolidating all the plans submitted by departments, Cells and Committees. The Routine Committee prepares class time table as per the workload and in the process, extra classes are engaged by teachers in case of loss of sufficient working hours. As per the Curriculum plan, the classroom proceedings make space for seminars, group presentations, ICT methods, student centric methods like peer teaching, peer learning, field visits, role play etc., If the curriculum plan deployments demands innovative activities like field visits, street play, socio economic survey etc, then curriculum deployment also goes out of the four walls of the classroom. Various Cells and committees are roped in for this purpose. The University supports the teachers for effectively transacting the curriculum by providing a copy of the syllabus and specified hours allotted to each module/chapter, along with the list of reference books. Whenever, the syllabus revision is effected by the University, workshops and symposium are organized by the affiliating university. The institution has the Central Library with good collection of Reference books, Text books, Journals and Magazines and E-learning resources to help the teacher and the taught for effective transaction of the curriculum and updating the knowledge base from time to time. The institution provides and upgrades sufficient infrastructure facilities to undertake the curriculum and research activities like spacious class rooms, office rooms, laboratories, auditorium, computer lab, language lab, smart board - LCD projectors etc., and taken care of as per the advice of the IQAC. The institution encourages the faculty to participate in the Guest Lecture Program and present the papers at the State, National, International level seminars, workshops, conferences for getting exposure to the current trends in their respective subjects.

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The management has ensured full autonomy to all the departments with regard to extra academic activities like, deciding curriculum, modification in evaluation system, seminars (both national and international), extension lectures, special lectures or academic tours. This practice of decentralization has resulted in participative management for the faculty members cutting across all the departments wherein, the onus of suggesting, planning or successfully organizing such activities lie with the faculty of the various department of the institution. In general, the college administration holds regular meeting of different academic administrative bodies where teachers, supporting staff members and students participate. Based on the deliberations on different issues, the college finally reaches the decision. During the academic year 2018-19 the institution decided to organize academic seminars for all the departments. All the academic activities of the college are decentralized. IQAC coordinator inform all the HOD's to prepare calendar of events and later in consultation with the senior staff members and principal IQAC coordinator prepare College Calendar. The principal based on the calendar of events of the college decide curricular and co-curricular activities and delegating the responsibilities to the respective staff members. Heads of each department decide on allotment of workload, time table of subject/paper or period allocation, purchase of books to library, lab equipment, organizing special lectures, field visits etc. The student along with active support of the teachers and college authority, organized different co-curricular events to mark the celebration.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Admission of Students	Admission is purely based on WBJEE and JEE (Mains) rankings. Admission process is systematically administrated and transparency is maintained in accordance with the norms prescribed by

the competent authority. The advertisement for the same is published in newspapers. The institute also admits students from other states.

Industry Interaction / Collaboration

The collaboration with various institutes of higher learning, industrial houses and agencies that the college has entered into has positively impacted the all-round development of our institution. Students have been able to receive industrial training at reputed industry houses like BSNL, Thermal power plant, Indian Railway, Prasar Bharathi etc. For betterment of students we have recently done a MOU with EDI, Kolkata and AUTODESK for different collaborative activities.

Human Resource Management

IQAC and Principal motivate the faculty members to undertake various orientations, refresher courses for the personal as well as academic development in turn institutional development. Employees are the most fundamental parts of any organization. The institution respects and acknowledges the contribution of all its members. It also rewards them duly. This enhancement improves their quality of work and proves beneficial for the college. The Departmental Heads conducts review meetings with faculty to focus and maintains records of attendance, mentoring, syllabus coverage and remedial classes.

Library, ICT and Physical Infrastructure / Instrumentation

We have already installed Elevator systems to implement barrier free environment. Library is well furnished with more than 30,440 books, 480 e-books and 4,747 e-journals. Separate reading hall is available with seating capacity of approximate 150 users. However, data of all library books is stored in KOHA library management software. It helps to generate reports like accession report, number of books registered, in addition to this, the barcodes of books are generated. The sufficient numbers of computers are provided to fulfill ICT need of the institute.

Research and Development

Faculty members are encouraged to submit research proposal for the various research grants such as DST, UGC, CSIR etc. and our management also provides necessary facilities to undertake research for the faculty. We

have already applied for one DST project and one MODROB project for VLSI design lab. For project development we have also applied for NewGEN IEDC. Faculty members of our institute are regularly published research paper in UGC approved journal. Some faculty members are also applied for Ph.D in MAKAUT and two of them have already registered in that said University for Ph.D programme.

Examination and Evaluation

Examinations were conducted by the direction of Affiliating University, MAKAUT, Kolkata. Internal assessment is conducted by different methods such as surprise test, oral test, Unit test etc. Soon after completion of examination, exam cell coordinator distribute the unit test examination papers to the concerned faculty members for evaluation and early submission of marks initiate to take the action on slow learners and advance learners.

Teaching and Learning

Teaching learning process is student centric in nature. It is successfully achieved through virtual class such as Knowledge lab, virtual lab etc. and it is also through ICT based facilities. Before the commencement of every semester respective departments prepare a detailed study plan for the individual teachers and the number of classes allotted to each course. On the basis of this the Routine Committee prepares a detailed time table for the entire semester. Finally this is distributed to the departmental teachers and the students and also to the departmental website.

Curriculum Development

Curriculum for the syllabus prescribed by the Affiliating University, MAKAUT, Kolkata. Curriculum Development plan is prepared by all the faculty members by the direction IQAR coordinator and decided to implement the same during the teaching learning process. Curriculum Development plan includes course outcomes, programme outcomes and target achieved is also focused. The process of gap analysis and after that the required modification the course begins at the departmental level, where the faculty members discuss the various issues related to it. While doing so, they take the opinion of faculty members from other colleges and universities as well as other

institutes of repute. The opinion of the present students and alumni is also given due weightage.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

A. Rain water Harvesting: Rainwater harvesting is a technology used to collect, convey and store rain water for later use from relatively clean surfaces such as a roof, land surface or rock catchment. It is the technique of collecting water from roof, Filtering and storing for further uses. Rainwater Harvesting is a simple technique of catching and holding rainwater where its falls. Either, we can store it in tanks for further use or we can use it to recharge groundwater depending upon the situation. This system provides sources of soft, high quality water reduces dependence on well and other sources and in many contexts are cost effective. Components of Rainwater Harvesting System: A rainwater harvesting system comprises of components for - transporting rainwater through pipes or drains, filtration, and tanks for storage of harvested water. The design and installation of RWH system includes following: 1. Rainwater Catchment and Conveyance 2. Rainwater Storage 3. Rainwater Quality and Treatment With above literature it is found that the rainwater harvesting system can be developed with qualitative and quantitative approach for the case study under consideration. **B. Installation of sanitary napkin vending machine and sanitary napkin incinerator:** To educate and create awareness of use of Sanitary Napkins and provide easy access to Sanitary Napkins by installation Simple Vending Machines in our girls toilet so that Girls/Women get habituated to use this Sanitary Napkins for their better health care. Secondly, to solve the problem of sanitary napkin disposal by installing incinerators which shall reduce spread of infection due to unhygienic disposal of sanitary napkins, reduce environmental pollution due to non-biodegradable sanitary napkins and reduce clogging of public drainage system due to spongy nature of napkins.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Dream Institute of Technology a milieu for five manifestations: 'DEDICATION, RESEARCH, EDUCATION, ADVANCEMENT, MOTIVATION'. From a modest beginning in July 2006, the Dream Institute of Technology made a pledge to create the ideal environment for young, fresh, talents to realize and optimize their potentials. We facilitate students to develop a symbolic relationship between the community, society and the institution. We are at work in unison to ensure a tremendous value-addition among our students during their four years of stay with us. At the same time, we are also confident to ensure that the alumni of our college always feel proud of their institution of choice in the days ahead of us. From the inception of this institute we are more focused in innovation and entrepreneurship so that students can inherit more real life problem solving attitude in their future path. In this context Dream Institute of Technology already have established a pre incubation center in the campus,

Innovation and Entrepreneurship Development Cell (IEDC) which was initially funded by DST, Government of India. Students from this institute participated and won prestigious position in various national level and few international level events and competitions like Smart India Hackathon (SIH), India Innovation Challenge Design contest (IICDC), NASA Space-App challenge, NRDC National Meritorious Innovation Award etc. Institute also established Institute Innovation Council (IIC) as initiated by MHRD, Govt. of India to have more focused on innovation and related activity. We feel that social and moral values are the most important factor to have in an engineer, so we encourage our students to engage some social responsibility related activities. Students are participated programme like Swachh Bharat Summer Internship Programme, Unnat Bharat Abhiyan, Blood donation camp etc.

8.Future Plans of Actions for Next Academic Year

The institute through staff meetings, management discussion, proposals from the board of management, parent teachers association collects the proposals for future plans. The proposals are screened for their availability, financial implications and future plans are finalized. Following are some of the plans proposed. a) There is a need to motivate and orient teachers to apply for research funds from various agencies and also to build MOU with industries. A series of lectures, workshops are planned as institutional activity to orient and act upon. b) The student alumni, needs to be encouraged, to take college improvement programme and community base activity, well designed efforts will be made to conduct meetings, plan and to implement. c) More different types of Institutional Social Responsibility related activities will be taken up. d) More online courses will be made available to students. Specially online courses offered by renowned universities and institutes of foreign countries needed to be explored as it has been reported by some of the students that some of the online courses offered by NPTEL-SWAYAM etc. are not at all up to the mark. e) Some Seminars and Workshops will be arranged as professional development of teachers, to create new knowledge. f) New initiative to organize conference which will promote quality in institution as well as programme, priority areas are quality sustenance and quality enhancement measures, promotion of assessment and accreditation, Internal quality assessment systems, promotion and sharing of best practices in collaboration with NAAC. g) There are some newly recruited staff, they need to be empowered. Activities are designed to support the staff for admission to online courses, academic staff college programme and similar activities. h) Some of our laboratories may be kept open for some hours to the students so that they get acquainted with the high end equipment available here for their project purpose. i) New initiatives to garner and ecofriendly environment will be taken from next session.
