

YEARLY STATUS REPORT - 2022-2023

Part A

Data of the Institution

1.Name of the Institution	Dream Institute of Technology
• Name of the Head of the institution	Dr. Dipankar Sarkar
• Designation	Principal
• Does the institution function from its own campus?	Yes
• Phone no./Alternate phone no.	03324980376
• Mobile no	9830495486
• Registered e-mail	drds2b@hotmail.com
• Alternate e-mail	drds5486@gmail.com
• Address	Samali, Bakhrahat Road, Thakurpuur
• City/Town	Kolkata
• State/UT	West Bengal
• Pin Code	700104
2.Institutional status	
• Affiliated /Constituent	Affiliated
• Type of Institution	Co-education
• Location	Semi-Urban

• Financial Status	Self-financing				
• Name of the Affiliating University	MAKAUT				
• Name of the IQAC Coordinator	Abhishek Saha				
• Phone No.	9432985836				
• Alternate phone No.	6290698761				
• Mobile	9432985836				
• IQAC e-mail address	dit.iqac@gmail.com				
• Alternate Email address	saha.abhishek10@gmail.com				
3.Website address (Web link of the AQAR (Previous Academic Year)	https://dreaminstituteonline.com/about/AQAR/AQAR-21_22.pdf				
4.Whether Academic Calendar prepared during the year?	Yes				
• if yes, whether it is uploaded in the Institutional website Web link:	https://dreaminstituteonline.com/iqac/Academic-Calendar-19-20.pdf				
5.Accreditation Details					
Cycle	Grade	CGPA	Year of Accreditation	Validity from	Validity to
Cycle 1	C	1.95	2019	15/07/2019	14/07/2024
6.Date of Establishment of IQAC			15/07/2014		
7.Provide the list of funds by Central / State Government UGC/CSIR/DBT/ICMR/TEQIP/World Bank/CPE of UGC etc.,					
Institutional/Department /Faculty	Scheme	Funding Agency	Year of award with duration	Amount	
NIL	NIL	NIL	NIL	NIL	
8.Whether composition of IQAC as per latest NAAC guidelines			Yes		
• Upload latest notification of formation of IQAC			View File		

9.No. of IQAC meetings held during the year	2	
<ul style="list-style-type: none"> Were the minutes of IQAC meeting(s) and compliance to the decisions have been uploaded on the institutional website? 	Yes	
<ul style="list-style-type: none"> If No, please upload the minutes of the meeting(s) and Action Taken Report 	No File Uploaded	
10.Whether IQAC received funding from any of the funding agency to support its activities during the year?	No	
<ul style="list-style-type: none"> If yes, mention the amount 		
11.Significant contributions made by IQAC during the current year (maximum five bullets)		
NBA Accreditation (EE Department), Formation of IEEE Student Branch, Formation of IET Student Chapter, OBE Implementation, Academic Audit,		
12.Plan of action chalked out by the IQAC in the beginning of the Academic year towards Quality Enhancement and the outcome achieved by the end of the Academic year		
Plan of Action	Achievements/Outcomes	
NBA Accreditation	EE Department got NBA Accreditation	
IEEE Student Branch	IEEE student Brach formed under the guidance of ECE Department	
IET Student Chapter	Formed under the guidance of EE Department.	
OBE	Implemented in every section.	
Workshop Organized	Organized workshop on Teaching learning process for teaching staff.	
Academic Audit	Academic audit done for every department by an external academician.	
13.Whether the AQAR was placed before	Yes	

statutory body?					
<ul style="list-style-type: none"> Name of the statutory body 					
<table border="1"> <thead> <tr> <th>Name</th> <th>Date of meeting(s)</th> </tr> </thead> <tbody> <tr> <td>IQAC</td> <td>21/03/2024</td> </tr> </tbody> </table>		Name	Date of meeting(s)	IQAC	21/03/2024
Name	Date of meeting(s)				
IQAC	21/03/2024				
14. Whether institutional data submitted to AISHE					
<table border="1"> <thead> <tr> <th>Year</th> <th>Date of Submission</th> </tr> </thead> <tbody> <tr> <td>2022-2023</td> <td>20/01/2024</td> </tr> </tbody> </table>		Year	Date of Submission	2022-2023	20/01/2024
Year	Date of Submission				
2022-2023	20/01/2024				
15. Multidisciplinary / interdisciplinary					
<p>Our institute, a local organization of NPTEL, allows students to transfer credits using the NPTEL-SWAYAM platform.</p> <p>Completed multidisciplinary projects such as "Electronic-Nose" for EE and ECE students and "3D Scanner using Arduino UNO" for the ECE department.</p> <p>We have taught multidisciplinary subjects for ECE, EE, and CSE students, "VLSI and Microelectronics" for Electrical students, and "Nonconventional Energy" for Electrical students. Future interdisciplinary courses will cover Artificial Intelligence and Machine Learning, VLSI Design, Cyber Security, and more.</p>					
16. Academic bank of credits (ABC):					
<ol style="list-style-type: none"> The National Academic Depository (NAD) holds the Institute's academic awards, such as degrees, diplomas, certificates, and mark sheets for students. The Institute uploads the required documentation to the depository and assigns the award to the student's account. Students can use the depository for retrieval as needed. 					
17. Skill development:					
<ol style="list-style-type: none"> The Institute has partnered with EduSkills Foundation to create a "Industry Center of Excellence" to integrate skill development courses from global academies into the university curriculum. The goal is to offer benefits to students and faculty members. Faculty and students receive training from global leaders in the following skills: <ul style="list-style-type: none"> AWS 					

- Blue Chip
- Microchip

2. Webinars and workshops on modern skills have been offered periodically. The institution has arranged almost 25 programs this year.

3. The Institute partners with Internshala to provide students with paid internships in firms to enhance their skills.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

We usually encourage students to take online courses through the Swayam platform, but we have yet to incorporate this into our curriculum. As an affiliated institute, we only follow the university curriculum.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

The Institute's programs are focused on outcome-based education. Outcomes are measured using course, program, and program-specific criteria.

1. The attainment of Course Outcomes of all courses with respect to set attainment levels are recorded.
2. Internal test questions and assignment questions are mapped to their respective COs. Grading criteria are established using an RUBRIC to determine level of accomplishment.
3. The final CO attainment is computed by combining the internal and exterior CO levels obtained by the above approach.
4. In the direct method, Program Outcome is measured using a CO/PO matrix. The CO is connected to the PO using the CO vs PO matrix outlined in the course syllabus. The PO attainment is calculated based on the specified CO/PO matrix and the subject's Final CO attainment.
5. The indirect method is based on surveys such as the Graduate-Alumni Survey, the Employer Survey, and the Parent Survey.
6. The final PO accomplishment includes both the direct and indirect methods. The PO attainment is calculated by adding the weighted

direct and indirect attainments.

20.Distance education/online education:

MOOCs (Massive Open Online Courses) are integrated into university curricula and scholarly activity in the following ways:

1. MOOCs for Honours Degree at Undergraduate Level (As per MAKAUT):

To obtain a B.Tech Honours Degree, students must earn 20 credits from established MOOC platforms, in addition to the 160 credits required for a B.Tech degree.

2. MOOCs are also used for credit transfer as equivalent to theory courses of Curriculum under the recommendation of BoS:

The university had already implemented credit transfer for MOOC courses. MOOCs allow students to take courses from several institutes and transfer credits earned through online learning.

3. MOOCs for Mandatory Additional Requirements (MAR) aim to encourage students to pursue digital education from reputable universities and organizations.

During the epidemic, the University implemented online teaching and learning. Despite starting offline programs in early 2022, our Institute offers a hybrid learning option for students who cannot attend in person.

Dream Institute of Technology uses a Learning Management System (KLAB) to hold course materials for various programs.

Part B

CURRICULAR ASPECTS

1.1 - Curricular Planning and Implementation

1.1.1 - The Institution ensures effective curriculum delivery through a well planned and documented process

The curriculum aims to promote students' overall growth. Dream Institute of Technology, affiliated with Maulana Abdul Kalam Azad University of Technology in West Bengal, commits to University norms covering curriculum, syllabus, examination system, semester duration, and academic calendar. The university offers a variety of "value-added" courses that reflect students' interests and preferences. Faculty members adhere to the university syllabus, create weekly lesson plans, track student progress, and assign course materials. Teachers implement the curriculum through classroom instruction, guided practice, discussions, hands-on activities, and other instructional methods. Teachers develop detailed lesson plans based on the curriculum framework. The IQAC oversees the committee responsible for coordinating academic programs in collaboration with international organizations like IEEE and IET.

The institution enhances its facilities, including labs,

workshops, and libraries, to align with university improvements. The R&D Cell invites academic members to pursue Ph.D. programs at prestigious Indian institutions and universities, as well as participate in the Guest Lecture Programme and deliver papers at various levels.

File Description	Documents
Upload relevant supporting document	No File Uploaded
Link for Additional information	https://dit.knowledgelab.in/

1.1.2 - The institution adheres to the academic calendar including for the conduct of Continuous Internal Evaluation (CIE)

Maintaining an academic calendar, including Continuous Internal Evaluation (CIE), is crucial for educational institutions to run smoothly. At the beginning of each academic year, the University provides a comprehensive academic calendar that outlines important dates and events, including CIE schedules. The academic calendar specifies the dates for conducting Continuous Internal Evaluations throughout the academic term. The academic calendar holds both students and professors accountable for completing deadlines and requirements, establishing a culture of responsibility and academic performance. On the scheduled dates, the institution ensures that appropriate arrangements are made for administering CIE assessments. Faculty members develop CIE assessments in alignment with course objectives, curriculum standards, and instructional strategies. Continuous evaluation (CIE) involves periodic evaluations such as report writing, PowerPoint presentations, assignments, long and short answers, and projects. As per the academic calendar, assessments were evaluated using individual login passwords by the faculty members on the university site. At the end of the course, Faculty members prepare an attainment matrix utilizing the internal assessment marks and end-semester university grades by which the entire analysis of the result is formulated.

The institution collects and analyzes data from CIE assessments to evaluate student performance, identify trends, and inform instructional decision-making. Based on the insights gained from CIE data analysis, the institution continuously seeks to improve its educational practices and enhance student learning outcomes.

1.3 - Curriculum Enrichment**1.3.1 - Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability into the Curriculum**

Incorporating cross-cutting problems, such as gender, human values, sustainability, professional ethics, and the environment, into the curriculum ensures students obtain a well-rounded education prepares students to face real-world challenges and make ethical judgements in personal and professional settings. These courses equip students for job success and responsible global citizenship by addressing current concerns. Integrating Professional Ethics and Human Values into courses increases students' awareness of ethical considerations in their fields. Incorporating environmental and sustainability concepts into the curriculum improves students' comprehension of concerns and solutions. By incorporating professional ethics into the curriculum, students develop a strong understanding of ethical principles and dilemmas relevant to their field.

Cross-cutting subjects often connect to other educational areas, encouraging interdisciplinary learning. Incorporating these areas

into many courses allows students to explore their connections and approach complex problems from different perspectives, fostering critical thinking and complete understanding. Teaching human values such as empathy, integrity, and respect for diversity encourages students to consider the human impact of their decisions and actions. Integrating environmental issues into the curriculum raises awareness about sustainability and environmental conservation. Students learn about the environmental impact of their profession and explore ways to minimize negative effects through sustainable practices.

Overall, incorporating these cross-cutting concerns into the curriculum helps students acquire a holistic perspective of their profession and prepares them to face difficult challenges while keeping ethical awareness, social responsibility, and sustainability in mind.

2.2 - Catering to Student Diversity	
2.2.1 - The institution assesses the learning levels of the students and organizes special Programmes for advanced learners and slow learners	
Assessing students' learning levels and preparing specific programmes for both advanced and slow learners is a proactive	

strategy to promoting inclusive education and ensuring that all students have the support they require to achieve. To encourage academic success for every student, it's important to assess their learning levels and create tailored programmes for both fast and slow learners. **Assessment Methods:** Students are evaluated using four continuous assessments (CA) as per the academic calendar, Power Point Presentation, Report Writing, Subjective type Question & Answer and a University organized Centralized exam. Various assessment methods, such as standardised examinations, instructor observations, project-based assessments, and formative assessments, are used to accurately assess student learning levels.

These assessments help teachers understand each student's strengths, limitations, and learning preferences. Each student has different strengths and limitations, as well as different learning styles. Fast learners perform academically and have profound comprehension, while slow learners face learning issues. Monitoring both categories of learners on a regular basis is crucial for assessing the effectiveness of treatments.

Special programs can provide fast learners with enrichment activities, projects, and challenges that go beyond the standard curriculum. These opportunities allow them to explore topics in greater depth and pursue their interests.

Special programs can provide additional support and resources for slow learners, including tutoring, small-group instruction, or personalized learning plans tailored to their individual needs. Encourage slow learners with positive reinforcement, praise, and recognition to build their confidence and motivation, allowing them to overcome obstacles and succeed.

Any additional information	No File Uploaded

2.3 - Teaching- Learning Process

2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

By applying student-centric methods like experiential learning, participative learning, and problem-solving can improve learning by engaging students, encouraging critical thinking, and promoting deeper understanding of concepts. Our institution has implemented Outcome Based Education (OBE) since Academic Year 2021-22. Faculty members have attended professional development to become familiar with OBE under the institution's supervision. Using student-centric strategies may create dynamic, engaging, and inclusive learning environments, empowering students to take ownership of their learning and achieve meaningful goals.

- Experiential learning involves practical, hands-on activities that allow students to directly engage with the subject matter. This could include experiments, simulations, field trips, or real-world projects.
- By immersing students in authentic experiences, experiential learning promotes active engagement and encourages them to apply theoretical knowledge in practical contexts.
- Participative learning involves collaborative activities such as group discussions, debates, peer teaching, and team projects.
- By involving students in discussions and decision-making, participative learning empowers them to take ownership of their learning and develop critical thinking skills.
- Strengthening learning experiences via multimedia materials, interactive presentations, and gamification tactics.
- Problem-solving methodologies present students with authentic, real-world challenges that require critical thinking, analysis, and creative problem-solving skills to resolve.
- Encourage students to explore their interests, passions, and strengths through personalised projects, research opportunities, or optional courses.

2.3.2 - Teachers use ICT enabled tools for effective teaching-learning process. Write description in maximum of 200 words

Implementing ICT-enabled technologies can significantly improve educational efficacy. To maximise teaching and learning, instructors should employ ICT-enabled tools. Incorporating ICT-enabled technologies into the teaching-learning process allows for more dynamic, interactive, and student-centered learning experiences that meet the different demands of learners in the digital age.

Here's how teachers can utilize ICT tools for more engaging and impactful instruction:

- Teachers can use multimedia tools like PowerPoint presentations, Whiteboards etc to deliver engaging lessons that incorporate visuals, videos, and animations.
- Interactive presentations help capture students' attention, reinforce key concepts, and facilitate active learning.
- ICT tools enable the creation of virtual laboratories and simulations that allow students to conduct experiments and explore scientific concepts in a safe and controlled environment.
- Virtual labs provide hands-on learning experiences, promote inquiry-based learning, and facilitate experimentation without the need for physical equipment.
- Teachers utilize collaborative platforms such as Google Workspace (formerly G Suite), Microsoft Teams, or online discussion forums to facilitate collaboration, communication, and peer interaction among students.
- LMS platforms known as Knowledge Lab provide teachers with tools for organizing course materials, delivering online assessments, and tracking student progress.
- Provide faculty with continual training and professional development to improve their expertise in using ICT tools.

2.5 - Evaluation Process and Reforms

2.5.1 - Mechanism of internal assessment is transparent and robust in terms of frequency and mode. Write description within 200 words.

Maintaining academic integrity and building confidence with stakeholders requires transparent and effective internal assessment mechanisms. The institution adheres to the criteria and timetable for performing the 02 Continuous Assessments (PCA1-PCA2) for practical courses and the 04 Continuous Assessments (CA1-CA4) for theory courses every semester. PCAs are conducted at the college level using laboratory data and posted to a university site. In 2021-22, college-level Continuous Assessments (CA1-CA4) follow University Academic Calendar norms. The institution's operational Examination Cell oversees all internal assessments. Faculty members assign the continuous assessment via LMS Platforms and evaluate the answer sheets as per the academic calendar protocols. Ensuring transparency in the evaluation process by providing students with clear expectations, grading criteria, and feedback on their performance. Students may check their marks on their university profile and report any anomalies to the Examination Cell. Faculty members should provide a copy of

the question paper with the mapping of Bloom's level and course outcomes to the examination cell for reference. The department and examination cell preserve all documents for PCA1-PCA2 and CA1-CA4 exams, including question papers, answer scripts, and marks, for future use.

File Description	Documents
Any additional information	No File Uploaded
Link for additional information	Nil

2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time-bound and efficient

Establishing a clear, timely, and effective method to handle internal examination-related issues is crucial for ensuring fairness, responsibility, and confidence inside educational institutions. Our institution has an effective complaints mechanism for internal examinations. Internal examinations are scheduled according to the academic calendar. At the outset of each semester, faculty members provide students with comprehensive information on the assessment process. Exam schedules for internal assessments are established and sent to students in advance. There are assessment rubrics for CA1, CA2, CA3, and CA4.

Answer scripts must be uploaded and examined using the university's official portal. The student must submit their lab records on a regular basis. Each experiment analyses students' daily performance, including viva performance and record submission preparedness. The marks or grade scored by the student for each experiment are indicated in the observation/record. The end examination for the laboratory and projects shall be conducted with internal and external examiner appointed from the other colleges as decided by the university. The Project Review Committee evaluates the project's quality.

Link for additional information	Nil

2.6 - Student Performance and Learning Outcomes

2.6.1 - Programme and course outcomes for all Programmes offered by the institution are stated and displayed on website and communicated to teachers and students.

Defining program and course outcomes, posted on the website and communicated to instructors and students, are crucial for preserving transparency, matching expectations, and promoting successful teaching and learning. This information should be easily accessible to prospective students, current students, faculty members, and other stakeholders. Declaring and presenting program and course results on institutional websites and LMS platforms promotes accountability, alignment, and transparency in education. Program Outcomes (PO) should reflect students' expected knowledge, abilities, competencies, and qualities following program completion. Course outcomes should reflect program results and outline particular learning objectives and expectations for each course. Aligning course material, assignments, evaluations, and instructional techniques with stated goals ensures a coherent and consistent learning experience.

Assessments ought to measure students' knowledge, abilities, and competencies against the outcomes. Students must get clear program information and course outcomes at the start of each course. Accessible POs and COs facilitate continuous evaluation and feedback loops. Institutions can collect data on student performance, evaluate educational program, and make educated decisions to enhance teaching and learning practices over time.

Upload COs for all Programmes (exemplars from Glossary)	No File Uploaded

2.6.2 - Attainment of Programme outcomes and course outcomes are evaluated by the institution.

Evaluating the attainment of program outcomes and course outcomes is essential for ensuring the effectiveness of educational programs and assessing the success of students in achieving the intended learning objectives.

Here's how institutions can effectively evaluate the attainment of these outcomes:

- Institutions employ various assessment methods to evaluate

the attainment of program outcomes and course outcomes.

- These methods may include continuous assessments (CAs) throughout the semester as per the academic calendar which consists of CA1-Powerpoint Presentation, CA2-Report Writing, CA3-Subjective type Long Question & Answer and CA4-Centralized Exam conducted by University.
- Direct assessment involves evaluating student performance based on their actual work or performance, such as exam scores or project outcomes.
- Indirect assessment involves gathering feedback from students, alumni, employers, or other stakeholders regarding their perceptions of students' knowledge, skills, and abilities.
- Clear rubrics and assessment criteria are used to measure the extent to which students have achieved program outcomes and course outcomes.
- Assessments are aligned with program outcomes and course outcomes to ensure that they accurately measure the desired learning objectives.
- Analyse assessment results to determine student progress towards program and course goals.

After the course organiser calculates total course achievement, the CO-PO Attainment is created. The course instructor uses the CO-PO mapping matrix to determine the ultimate achievement level for the course. The CO-PO Attainment is created after calculating course achievement, and instructors use it to determine course success. Institutions monitor assessment processes to ensure effectiveness, support student success, and improve teaching and learning experiences.

3.2 - Innovation Ecosystem

3.2.1 - Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge

We have created an ecosystem for innovation and have taken initiatives for transfer of knowledge. There are dedicated Project Lab and Institute Innovation Council (IIC) to encourage innovation, entrepreneurship and startup culture among students as well as faculty members. We have organized all total 15 events on Intellectual Property Rights (IPR) and entrepreneurship in the academic year 2022-23. There are research promotional schemes to sponsor registration fees of conferences to the students as well as faculty members. We have all total 5 functional MoUs with several industries to facilitate technology transfer, collaborative research and internship opportunities for students. To find new insights and approaches for solving complex problems we encourage collaboration of ideas across different departments within the institution. Several invited lectures under the flagship of 'Dream Popular Lecture Series' have been conducted for

creation and transfer of knowledge.

3.4 - Extension Activities

3.4.1 - Extension activities are carried out in the neighborhood community, sensitizing students to social issues, for their holistic development, and impact thereof during the year

Many Extension activities have been carried out throughout the year such as:

- Celebration of Azadi ka Amrit Mahotsav
- Free Health and Eye Check-up camp
- National Unity Day Celebration
- Yoga Day celebration
- One student one tree program
- "Field Visit to Identify the Problem Worth Solving"
-Outreach Activity to the surrounding Rural areas
- Sustainable Business Promotion Roadshow
- National Energy Conservation Day Celebration
- National Youth Day Celebration
- National Science Day Celebration
- International Day for the Elimination of Violence Against Women
- Discrimination Against Women Pakhwada

- International Women's Day Celebration
- Sports Competition named "KHELO INDIA" as mandated by AICTE
- Wealth Awareness Seminar

By actively participating in community service, students develop a sense of belonging and responsibility towards their neighborhood, leading to stronger community bonds. They also become more socially conscious and empathetic. Involvement in various extension activities allows students to acquire practical skills and knowledge beyond the classroom, which can be valuable for their future academic and professional endeavors.

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The Institution has adequate infrastructure and physical facilities for teaching- learning. viz., classrooms, laboratories, computing equipment etc.

The college building is eco-friendly and built with the Green Building concept, ensuring a healthy learning environment. It has 34 classrooms, 37 labs, 6 workshops, 2 seminar rooms, and a library. The college has IT-enabled classrooms with projectors, screens, and whiteboards, providing comfortable seating arrangements for students.

The CSE department has air-conditioned computer labs, with approximately 340 desktop computers and a maximum internet bandwidth of 300 Mbps. The ECE dept. has a Software Simulation Lab for Beyond the Syllabus curriculum, equipped with high-end software like TANNER, SILVACO, MENTOR GRAPHICS, and MATLAB. The EE Dept. has an Industrial Instrumentation Lab for Bridging the gap in the syllabus. There are separate rooms and spaces for various cells and societies engaged in interdisciplinary and multidisciplinary field activities. The fully functional and IT-enabled library, with separate reading rooms for students and teachers. The library subscribes to various e-resources, including E-journals, E-magazines, and project works of pass-out students. The IQAC has implemented online teaching platforms like Google Meet and Zoom, Knowledge Lab, and Dream popular Lecture series (DPLS) to enhance teacher-student interaction. The college also facilitates IET student chapters, providing new opportunities for

students to engage with various fields of study outside the classroom. Labs are furnished according to standard statutory norms, with safety measures taken seriously and designated lab assistants present during sessions. There are Project Labs with state-of-the-art equipment for each department to carry out outstanding projects. The institution has 80 and 40KVA power generators, a 10KVA UPS system for emergency backup, and 15% of power utilization is met through solar energy setup.

4.1.2 - The Institution has adequate facilities for cultural activities, sports, games (indoor, outdoor), gymnasium, yoga centre etc.

The Dream Institute of Technology's campus spans ten acres. A total of 1.3 acres are built up. The remaining area consists of gardens, a playground, walkways, parking, and a canteen. The institution makes extensive use of its resources to offer its students an atmosphere that promotes participation in extracurricular activities and sports. The Sports Committee acquires and maintains sports equipment, improving facilities for games and sports.

The schedule allows first-year students to participate in sports for one hour each week, allowing them to explore interests and physical abilities. It is recommended that they take part in intra-college tournaments at different levels. For important occasions, kids are given access to all significant sporting equipment. Certificates of participation are given to each participant as a token of encouragement.

Exercise equipment such as the cross cable, Preacher, curl machine, leg press, bench press, and abs exerciser are kept in the gymnasium. Students can visit the facility in the morning and the evening. There's yoga practice at the college. The pupils are inspired to practice yoga daily. Every year on June 21, International Yoga Day is observed in the college with a yoga instructor under the direction of the NSS cell.

The Institutional Cultural Committee manages cultural events and values student development. The college encourages extracurricular

activities, such as the annual INFINITO Cultural Festival and E-WEEK, to ignite passions, foster cooperation, and enhance leadership. These events involve dancing, singing, ramp walks, tradition days, and creative ideas for start-ups.

4.2 - Library as a Learning Resource

4.2.1 - Library is automated using Integrated Library Management System (ILMS)

Our College Central Library is semi-automated with the details below: Name of the ILMS Software: KOHA on Cloud Version: 23.05.05.000 1.Dream Institute of Technology's library has been running on a semi-automated system. Acquisition of books and journals, cataloging, circulation, serialization, and OPACare among the available services that are integrated into the many activities of library management.

2.Three library kiosks offer OPAC-based book database searches, eliminating manual searching requirements. This service includes bibliographic information, current status, and other materials, enhancing academic information, helping teachers and students find library resources, and encouraging interdisciplinary knowledge.

3. The reference room houses 18 LAN-connected desktops with Wi-Fi and internet access, enabling access to various library links (online journals, e-Shodh Sindhu, NDL, NPTEL, e-books) and a high-quality photocopier for hard copy material duplication.

4. An Open Access System is followed in our Institution. In addition to the well-stocked Library, each department has its own Library to facilitate easy access to the Faculty, Students, and Research Scholars.

5. The library has a rich collection of 31896 books with 3160 titles, 1229 National Journals and 5565 International Journals in JGATE, 724 e-books, Project reports, and Newspapers (both English & Bengali).

6.The library follows the Book Bank Scheme. With this, the students can borrow books for the entire length of a semester to help them study. All books are bar-coded, and Reference IDs are generated by the software as given. Two Bar Code scanners are available in the Central Library (1. BS-C103G[TVS Electronics] 2. BSC-101STAR[TVS Electronics])

Working Hours: 10:20 a.m. to 05:20 p.m. on weekdays.

4.3 - IT Infrastructure	
4.3.1 - Institution frequently updates its IT facilities including Wi-Fi	

In the last five years, the overall IT infrastructure has been updated and improved, with the latest equipment/software. The College acquired Max 300 Mbps bandwidth (300 Mbps from BSNL, 70 Mbps from Wish Net, and 12 Mbps from Vodafone Idea Ltd.). The computer systems were also upgraded. The details of IT infrastructures are as follows for academic and administrative purposes. Computer Systems: o Core i3 (10th Gen) : 30 o Dual Core 11(Gen 2) : 32 (approx) o Dual Core Normal: 283 (approx.) Servers: 2 nos The library, examination cell, HODs' rooms, and administrative office all are equipped with printers.

The College also uses KnowledgeLab, the LMS platform, for efficient learning management. At the beginning of each academic year, KLAB and our website were updated with the academic calendar and course materials, including the schedule. Information about upcoming events and ongoing programs is available on the college website. The details, dates, and time of the occurrence are included in these facts. After the event is over, pictures are also available. This enables parents to be aware of the college programs as well.

The Language Lab has purchased the Software Orell Talk SMART Version. The entire campus is under surveillance by CCTVs. Overall, 56 nos of CCTVs are installed at strategic locations helping to monitor the entire campus activity.

The IT maintenance staff provides support for faculty profile updates and exam process surveillance. The Real-Time T-16C RFID-based staff attendance system and a smart interactive board with audio-visual aids are implemented. The College has revamped its website, enhancing its user-friendliness and interactivity, and is managed by the Website Committee.

4.4.2 - There are established systems and procedures for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc.

Our college maintains and makes thoughtful use of its academic, administrative, and physical facilities. Each department submits a list of broken or repairable equipment once a year. Classroom management is crucial in a modern classroom, as per the university guidelines and management criteria. Annual maintenance contracts (AMCs) are necessary for contemporary educational equipment for regular cleaning and repair. The college's operations rely on

appropriate reporting and asset management to ensure a clean and effective learning environment. AMCs maintain a crucial laboratory policy for each of the five engineering departments at the College. Safety measures are ensured via first-aid kits and fire extinguishers. For the students' safe use, general and safety guidelines are posted in each lab. Laboratory operations are kept secure and the number of casualties is decreased by employing these procedures.

The college library has its systems and procedures in place to keep track of purchases based on the courses that are being taught and to keep an eye on the resources that will be made available to staff and students. The policies of the institution and the parent body are often followed by the norms. The sports committee plans intramural and outdoor student competitions, maintains the sports field and its equipment, and encourages participation for holistic development. The committee also observes International Yoga Day.

GOVERNANCE, LEADERSHIP AND MANAGEMENT	
6.1 - Institutional Vision and Leadership	
6.1.1 - The governance of the institution is reflective of and in tune with the vision and mission of the institution	

The institution aspires to promote student integrity through programs and events, while simultaneously offering a comfortable study atmosphere for academic performance. The governance of an institution should be closely aligned with its vision and mission to ensure that all activities and decisions are guided by the overarching goals and values of the institution. The College seeks to teach moral principles and provide an outstanding education—two characteristics that are consistent with the advancement of the country. The leadership, including the board of directors, administrators, and senior management, should demonstrate a strong commitment to the institution's vision and mission.

Vision of the Institute:

To be a prominent institution passionately developing competent technocrats capable of serving the nation and the world.

Mission of the Institute:

- To promote Inter-departmental collaborative projects & research and improve publications and Initiate Internal Revenue Generation activities through consultancy, continuing education programs, etc. (Obtain at least 5 projects every year) involving students wherever possible.
- To provide a state-of-the-art teaching-learning ambiance to promote student-centric learning using the latest ICT tools and start new programs at UG & PG levels in cutting-edge technology.
- Continuous faculty development initiatives to update their knowledge and skills.
- Set up Incubation and innovation cells and encourage students to innovate and establish start-ups.
- Expand community outreach programs through the sharing of technical expertise with the aim of encouraging experiential learning among students.

The mission statement emphasises the importance of developing confidence, independence, and self-reliance.

6.1.2 - The effective leadership is visible in various institutional practices such as decentralization and participative management.

Effective leadership is often demonstrated through institutional practices such as decentralization and participative management. The College Governing Council seeks to recruit, cultivate, and keep qualified professors with excellent academic credentials. The institute promotes decentralisation, empowerment, and distribution of authority among academics and workers. Decentralization involves empowering lower levels of management and frontline staff to make decisions and take actions within their areas of responsibility. Effective leaders actively involve employees in the decision-making process through participative management practices. This approach encourages collaboration, teamwork, and collective problem-solving. This can help faculty members enhance their leadership skills, critical thinking, and awareness of educational policy and governance. Major committees comprise teaching, non-teaching staff, and students as well. Faculty members function as representatives of statutory bodies that make key decisions. The faculty members participate in the following bodies and committees to make effective decisions:

- College Governing Body
- Internal Quality Assurance Cell (IQAC)
- Examination Cell
- Routine Committee
- Institutional Academic council (IAC)
- Departmental Committee (DC)
- Mentoring Committee
- Disciplinary Action Committee
- Training and Placement Cell
- Student Welfare Committee
- Anti-Ragging Committee
- Library Committee
- Admission Cell
- Sports & Cultural Committee

The IQAC establishes quality policies and procedures for all parts of an institution, including teaching, research, administration, and student services. The IQAC creates and implements procedures to ensure compliance with quality standards set by regulatory organisations, accreditation bodies, and internal guidelines.

6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic/ perspective plan is effectively deployed

Deploying the institutional strategic or perspective plan effectively is crucial for guiding the organization towards its long-term goals and ensuring alignment across various departments and stakeholders. This frequently leads to a lot of activities on campus need strategic preparation. The essential ideas of liberal discussion, environmental protection, social responsibility, and democratic operation serve as the foundation for the planning policies. The strategic plans are aligned with the overall mission, vision, and values of the institution. This alignment ensures that all activities and initiatives support the overarching goals of the institution. Various mechanisms have been established for monitoring progress towards the goals outlined in the plan and evaluating the effectiveness of strategies and initiatives. Some of the strategic plannings are highlighted below:

- To achieve accreditation for the institution and all of its programmes from the NBA and NAAC.
- To offer cutting-edge facilities, a top-notch atmosphere, and a moral workplace culture.
- To highlight the academic members' excellent research.
- To establish two or more Centres of Excellence in particular science and engineering disciplines.
- To develop a lesson plan that works well together so that the syllabus may be finished methodically.
- Guaranteeing good placement outcomes for the students who will graduate.
- The institution seeks to move from being a teaching centre to a learning centre in order to become the main supplier of excellent education.
- The college encourages computer-aided learning, systematic evaluation, and continuous student performance analysis, providing extra instruction for weaker students, extended learning time, and more guidance for advanced learners.

6.2.2 - The functioning of the institutional bodies is effective and efficient as visible from policies, administrative setup, appointment and service rules, procedures, etc.

Ensuring the effective and efficient functioning of institutional bodies involves several key elements:

- **Governing Body:** The Institute's Governing Body provides a clear and transparent policies and procedures that govern the operations of institutional bodies. Usually, the governing body is in charge of significant decision-making procedures, financial management, and strategic planning.
- **Administrative Body:** The administrative system, comprising leaders and departmental authorities, ensures efficient coordination and implementation of institutional goals. Service rules and procedures outline employment terms, including recruitment criteria, job descriptions, performance evaluations, and benefits.
- **IQAC:** IQAC is the primary body responsible for ensuring quality on college campuses. IQAC's main responsibility is to plan, direct, and supervise a variety of programmes meant to raise the standard of instruction offered in the establishment.
- **Institutional Academic council (IAC):** The IAC is responsible for creating, reviewing, and revising academic programs and curricula to ensure they are current, relevant, and align with institutional objectives.
- **Head of Department:** The department head's primary responsibility is to engage in effective academic leadership. To guarantee that the department meets the highest standards of excellence in all of its operations, the head of the department must guide, manage, and grow the department.
- **Examinations In-Charge:** Planning, arranging, and directing all academic exams—CAs, final, supplemental, and other assessments necessary for scholastic advancement—falls within the purview of the examination cell.

- **Disciplinary Committee:** A Disciplinary Committee ensures fair and consistent disciplinary actions within an institute, primarily addressing misconduct or violations of organizational policies and regulations.

6.3 - Faculty Empowerment Strategies

6.3.1 - The institution has effective welfare measures for teaching and non-teaching staff

Implementing effective welfare measures for teaching and non-teaching staff is crucial for creating a positive work environment, promoting employee satisfaction, and enhancing overall productivity. Welfare initiatives that are effective for both teaching and non-teaching personnel must be implemented to foster a healthy work environment and increase employee satisfaction and well-being. Effective Welfare Measures include:

- Ensure that the workplace is secure, cordial, and free from harassment and discrimination.

- Offer a competitive benefits package
- Transport facility
- Health care
- Eligible staff members can take Medical Leave and Maternity Leave.
- Encourage a positive work-life balance by providing programmable hours.
- Canteen and Drinking Water
- Internet and free Wi-Fi facilities
- All teaching and nonteaching staff members participate in yoga training sessions.
- Free eye check-up camps are organized for teaching, non-teaching staffs and students.
- Gym
- The institution assists both teaching and non-teaching workers in accessing government assistance programmes.
- The institute encourages its faculty members to take part in academic development courses or professional development programmes that focus on outcome-based education in order to enhance their ability to teach and learn.
- The Women Empowerment Cell was established to give female members a place to develop and become stronger.

6.3.5 - Institutions Performance Appraisal System for teaching and non- teaching staff

Implementing a performance appraisal system for both teaching and non-teaching staff is essential for evaluating employee performance, providing feedback, identifying areas for improvement, and recognizing achievements. Institutions can identify staff deficiencies in skills and training requirements through performance reviews, enabling focused professional development programmes. A well-thought-out assessment system minimises discrimination and favouritism and guarantees impartiality and openness in the evaluation of employee performance. For teachers, it happens at the ending of every academic year. The assessment procedure for teaching personnel consists of three steps.

- The first is the faculty self-assessment, which is mostly based on the course that the course coordinator has taught and has linked with the relevant POs.
- Students evaluate their professors' learning outcomes at the second level using a feedback system set up by the corresponding departments.
- External domain experts constitute an academic panel that conducts the last stage of evaluation.

The management of the institution receives insight into the teaching-learning process via the IQAC, which examines the professional development of both teaching and non-teaching staff. The Principal and the management take the appropriate steps for the quality enhancement of the faculties.

6.4 - Financial Management and Resource Mobilization

6.4.1 - Institution conducts internal and external financial audits regularly Enumerate the various internal and external financial audits carried out during the year with the mechanism for settling audit objections within a maximum of 200 words

Institutions typically conduct various internal and external financial audits throughout the year to ensure compliance with regulations, assess financial performance, and identify areas for improvement. An institution's compliance with applicable laws, rules, and accounting standards about financial reporting and management is checked via audits. Audits assess the accuracy of internal controls and financial management procedures, enabling the institution to make necessary adjustments to reduce risks and enhance control measures. The IQAC presents budget recommendations to the Chairperson, the governing body, for review and approval each fiscal year. The recommendations cover a broad spectrum of subjects, such as laboratory supplies, library expenditures, wages for research and development, costs associated with conducting seminars and workshops, costs related to sports, contributions to external examiners, building infrastructure, and other maintenance expenditures.

Internal auditors review financial records, transactions, and processes to ensure accuracy, compliance with accounting standards, and internal controls effectiveness. Maintaining accounts, obtaining confirmations of credit balances, compiling documentation, verifying compliance with TDS and legal forms, and balancing unit-wise balances against Control Accounts and bank reconciliations are all part of internal auditing.

Following an external statutory audit, the auditors send the management the final audit report, which includes the audit outcomes. To provide a judgement on the fairness and correctness of the institution's financial accounts, external auditors inspect the financial statements and the associated documents.

6.4.3 - Institutional strategies for mobilization of funds and the optimal utilization of resources

Institutions employ various strategies to mobilize funds and optimize the utilization of resources to support their operations, initiatives, and long-term sustainability. The institute has established a clear framework to guarantee that funds are utilised effectively and wisely to build academic infrastructure and procedures. The college receives funding from the government in the form of salary grants for solely aided courses. UGC grants are also awarded to the College in a number of categories.

Establishing strategic relationships and collaborations with other entities such as government agencies, research institutions, industry partners, and nonprofits allows institutions to get access to more funds, resources, expertise, and chances for collaborative initiatives. Members of the Finance Committee make all significant financial decisions. In the month of December, the best use of the cash from the allotted budget will be examined.

6.5 - Internal Quality Assurance System

6.5.1 - Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes

As a corrective effort to get rid of flaws and raise quality, the IQAC systematically works on quality measurements and studies them. IQAC is involved in the development and revision of quality assurance policies, procedures, and guidelines to ensure alignment with national and international quality standards, regulatory requirements, and institutional goals. By offering suggestions from the IQAC members, the Internal Quality Assurance Cell (IQAC) improves institutional procedures and educational quality, leading to better academic and administrative operations. IQAC monitors and evaluates the effectiveness of quality assurance strategies and processes through various mechanisms, including internal audits, self-assessments, peer reviews, stakeholder feedback, and performance indicators.

Few practices have become institutionalised through IQAC initiatives:

- The principles of outcome-based education have been included into the teaching and learning process by IQAC. Additionally, the institution has performed a professional development programme based on OBE for faculty members to enhance their understanding.
- To continue the NAAC-related activities and ensure that the NAAC Self Study Report is submitted successfully before the deadline for the Cycle 2 renewal procedure, IQAC has established an NAAC committee with the faculty members assigned in various criteria.
- Older faculty members are tasked to train and accustom recently hired faculty members to the OBE norms regarding teaching and learning under the direction of IQAC.
- IEEE Student Chapter has been formed as an IQAC initiative and students are enrolled for IEEE memberships and various societies.

6.5.2 - The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC set up as per norms and recorded the incremental improvement in various activities

The IQAC keeps an eye on the college's academic offerings in compliance with university policies. The Maulana Abul Kalam Azad University of Technology, West Bengal, to which our university is connected, sets the standards for our program. Yet the institution does occasionally provide periodic representation in areas such as the curriculum design, any necessary revisions for question papers (if any), and the evaluation of the response scripts. Our Respected Principal Sir serves on the Board of Studies of Maulana Abul Kalam Azad University of Technology, West Bengal. The development of educational resources, the submission of department-specific course files for each semester, result analysis, collect input from students and alumni regarding teaching-learning, syllabus content, infrastructure facilities, and other activities are just a few of the ways that IQAC efficiently addresses the teaching-learning process. The employment of ICT-enabled teaching strategies, such as online courses, Google Classroom, and other digital resources, is encouraged by IQAC. IQAC oversees both on-campus and off-campus interviews, as well as academic and financial responsibilities. Our college library purchased books and articles under the IQAC's recommendations for the benefit of students. Furthermore, IQAC is enthusiastic to promote research activities. Attempts have been made to boost the Chemistry, Physics, and Mathematics departments as research hubs.

In broadly, IQAC's contribution plays a pivotal role in cultivating an environment of excellence and ongoing enhancement within educational establishments, thus strengthening their reputation and efficiency in providing excellent teaching and services.

7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

Best Practice - I

Title: Professional Skill Development among Students

Context: In response to the evolving demands of the job market, where specialized skills are crucial for employment, our college recognized the imperative to equip students with professional competencies.

Practice: Our College initiated an on-campus Professional Skills program to cater to diverse student backgrounds. This included providing to enhance engagement and accessibility.

Success: Encouragingly, a significant percentage (10-20%) of participants demonstrated serious interest, indicating a strong foundation for future skill-based courses.

Challenges and Solutions: The key challenge lies in sustaining and expanding this initiative. Ongoing teacher supervision, along with the adoption of enhanced teaching methodologies.

Best Practice - II

Title: Women Centric Programme.

Context: Dream Institute of Technology prioritizes empowering women from diverse backgrounds through safety measures, education programs, and supportive initiatives.

Practice: The college ensures safety with 24/7 CCTV surveillance and security guards, while promoting awareness through seminars

and workshops on women's rights and sexual harassment prevention. NSS organizes various programs.

Success: Notably, the college boasts a strong safety record with no reported incidents of sexual harassment. Female student engagement in activities like yoga indicates positive response and well-being.

Challenges and Solutions: We need more such programmes and more women participation.

7.3 - Institutional Distinctiveness

7.3.1 - Portray the performance of the Institution in one area distinctive to its priority and thrust within 200 words

Portray the performance of the Institution in one area distinctive to its priority and thrust are as follows: Industry-focused curriculum and collaborations: Analyze if DIT offers unique programs or specializations aligned with industry needs. Highlight partnerships with companies for internships, guest lectures, or joint research projects. Quantify placement rates or industry recognition received by graduates. Entrepreneurial ecosystem: Assess if DIT fosters an entrepreneurial spirit through incubation centres, business plan competitions, or mentorship programs. Showcase success stories of alumni startups or the number of students participating in entrepreneurial activities. Community engagement and social responsibility: Evaluate DIT's initiatives for social impact, like community development projects, environmental sustainability practices, or pro bono services offered by students and faculty. Quantify the number of beneficiaries or positive outcomes achieved. Innovative teaching methods and learning environments: Explore if DIT implements unique teaching methodologies, like flipped classrooms, problem-based learning, or technology-integrated lessons. Analyze student satisfaction surveys or awards received for teaching excellence. Research excellence and innovation: Investigate DIT's research focus areas, publications in reputed journals, patents filed, or grants secured. Highlight faculty achievements, student involvement in research projects, or

contributions to specific fields.

7.3.2 - Plan of action for the next academic year

1. To encourage and facilitate Research Culture, to promote Research by Faculty.
2. To conduct health awareness programmes and soft skill courses.To build eco-friendly atmosphere in the campus by enhancing greenery all around.
3. To encourage faculty to Organise Faculty Improvement Programmes, National and International Conferences.
4. To encourage Faculty to Participate in Setting Question Papers (at University Examinations), Visit Other Institutions as Resource Persons, etc.
5. To organize programmes (informal education) on topics of general interest for the benefit of students and society / community
