Board functions:

The Ministry of Education (MoE), through the MoE's Innovation Cell (MIC), and in partnership with the All India Council for Technical Education (AICTE), launched the Institution's Innovation Council (IIC) programme in 2018. It was a significant initiative that was intended to cause a major change in

the environment of Higher Educational Institutions (HEIs). Shortly after the announcement, in the same year, Dream Institute of Technology completely embraced the concept and created its own IIC in line with the program's guiding principles.

The main goal of IICs is to organize the active engagement of a broad range of stakeholders, including teachers, students, and staff, in a variety of activities relating to innovation and entrepreneurship. These activities cover a wide range of endeavors, including brainstorming and problem-solving, proof-of-concept development, the use of Design Thinking methodologies, considerations for intellectual property rights (IPR), and the expert management of projects during the crucial pre-incubation and incubation phases. The ultimate objective is to create and foster an environment inside the institute that lives on creativity and entrepreneurial spirit.
